

# Art Plus

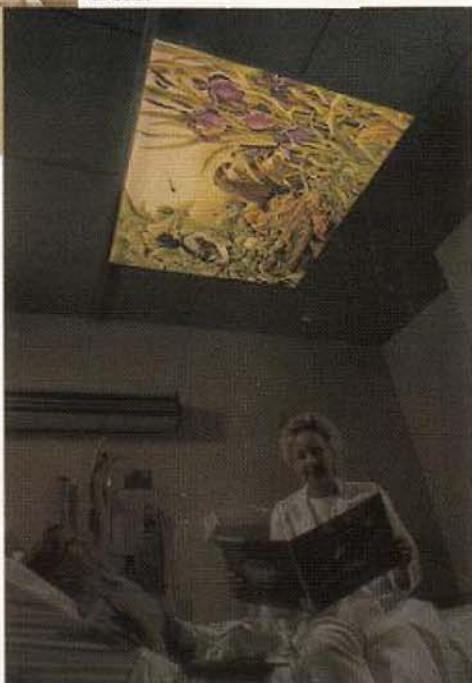

Corporate  
Art Consultants  
**HEALTH CARE SERVICES**

Let Art Plus develop a creative "theme" environment to compliment any healthcare decore. Our imagination series can create one of a kind single or multiple ceiling tile designs. Or decorative light panels (using existing light sources) to display wonderful designs in the dark for MRI units or low lighted areas.

The Gallery Wall Module utilizes an attractive poster to create a home-like atmosphere by concealing patient service outlets when not in use

- Administrative Office
